Product overview

Service your HydraMaster CDS 4.8 SV with the clutch kit specified for the listed Chevy V6 application. HydraMaster's published parts catalog identifies 000-078-746 as the V6 clutch kit and lists the V8 version separately as 000-078-744. The CDS uses the host vehicle's power to operate the truckmount cleaning system. Selecting the correct clutch kit requires matching the CDS configuration and vehicle application.

Confirm compatibility before ordering

- Match the required part number to 000-078-746.
- Provide your CDS model and serial number, vehicle model year, engine information and VIN to your HydraMaster distributor.
- Confirm any applicable production changes or part-number supersessions.
- Verify the current kit contents and whether any additional installation parts are required.

The catalog designation is CH V6 2021. Compatibility with other years or configurations requires confirmation. The V8 kit has a different part number; interchangeability has not been established.
