HydraMaster 000-068-826 Stainless Steel Braided Solution Hose Assembly â€“ 1/4" ID x 250 Feet

Model Number: 000-068-826

HydraMaster 000-068-826 Stainless Steel Braided Solution Hose Assembly â€“ 1/4" ID x 250 Feet

Manufacturer: HydraMaster

HydraMaster 000-068-826 Stainless Steel Braided Solution Hose Assembly – 1/4" ID x 250 Feet
The HydraMaster 000-068-826 is a 250-foot solution hose assembly featuring 1/4-inch inside diameter and stainless steel construction. Designed for use in professional carpet cleaning and truckmount extraction equipment, this hose assembly provides a solution delivery option for demanding commercial cleaning applications.
The stainless steel braided hose design provides reinforcement for applications involving pressurized cleaning solutions. Its 250-foot length allows extended reach between the cleaning equipment and the work area.
Product Specifications

Manufacturer
HydraMaster

Manufacturer Part Number
000-068-826

Product Description
Solution Hose Assembly

Hose Inside Diameter
1/4 Inch

Hose Length
250 Feet

Hose Construction
Stainless Steel Braided

Application
Professional Cleaning Equipment Solution Hose

Features and Benefits

- 250-Foot Length: Provides extended reach for professional carpet cleaning and extraction applications.
- 1/4-Inch Inside Diameter: Designed for cleaning solution delivery systems requiring 1/4-inch ID hose.
- Stainless Steel Braided Construction: Reinforced hose construction for demanding cleaning equipment applications.
- Hose Assembly: Factory-listed as a complete hose assembly rather than bulk hose material.
- HydraMaster Replacement Part: Order using manufacturer part number 000-068-826.

Common Applications
This type of solution hose assembly is used in professional cleaning equipment applications, including:

- Truckmount carpet cleaning systems
- Professional carpet extraction equipment
- Commercial upholstery cleaning systems
- Pressurized cleaning solution delivery
- Cleaning equipment hose replacement projects

Hose Identification and Replacement
When replacing an existing solution hose, compare the manufacturer part number, hose length, inside diameter, end connections, and operating requirements.
HydraMaster Part Number: 000-068-826
Factory Description: Hose Assembly, 1/4" ID Solution x 250 ft Stainless Steel
Important Ordering Information
Order by manufacturer part number, not by image. Product photographs may be representative. The manufacturer reserves the right to change product appearance, materials, specifications, or color without notice.
Do not freeze. Drain cleaning solution hoses and protect equipment from freezing temperatures.
HydraMaster Equipment Applications
The HydraMaster 000-068-826 stainless steel solution hose assembly is identified in
