HydraMaster 000-163-603SL 14 Inch Solution Hose Reel - Live Action Manual Rewind Hose Not Included

Model Number: 000-163-603SL

HydraMaster 000-163-603SL 14 Inch Solution Hose Reel - Live Action Manual Rewind Hose Not Included

Manufacturer: HydraMaster

HydraMaster 000-163-603SL Live Solution Hose Reel Assembly | HydraCradle Replacement Reel
The HydraMaster 000-163-603SL Live Solution Hose Reel Assembly is an OEM replacement hose reel assembly designed for use with compatible HydraMaster HydraCradle truckmount hose management systems.
This assembly provides a dedicated reel position for managing high-pressure solution hose used in professional carpet cleaning and restoration applications. The live solution reel configuration allows the solution hose to remain connected to the solution supply system while the reel is operated.

HydraMaster HydraCradle Hose Reel Applications
The HydraMaster HydraCradle system provides an organized hose management solution for professional truckmount carpet cleaning equipment. Depending on the system configuration, HydraCradle installations may incorporate multiple hose reels for vacuum hose, freshwater hose, and high-pressure solution hose.
The 000-163-603SL is identified as a live solution hose reel assembly for applicable HydraCradle configurations. It is intended for replacing or servicing the corresponding solution reel position rather than replacing the entire HydraCradle tank and hose reel system.
Benefits of a Live Solution Hose Reel

- Provides organized storage for high-pressure carpet cleaning solution hose.
- Helps reduce loose hose clutter inside service vehicles.
- Allows convenient hose deployment and retrieval.
- Designed for integration with compatible HydraMaster hose management equipment.
- OEM replacement part for maintaining existing HydraCradle installations.

Important Product Image Information
Only the solution hose reel assembly is being offered. The product photograph illustrates a complete HydraMaster hose reel system for reference purposes.
The orange hose reel is highlighted to identify the reel position associated with this listing. The large black vacuum hose reel, green freshwater hose reel, water storage tank, and other surrounding equipment are shown for illustration only and are not included.
Important: The orange hose shown in the photograph is for illustration purposes. Hose, fittings, and other accessories are included only when specified by the manufacturer's supplied assembly configuration.
Ordering Information
Order using HydraMaster part number 000-163-603SL. Confirm the required part number using your equipment's factory parts manual before placing an order.
HydraMaster may update component designs, finishes, and assembly configurations without prior notice.
Order by manufacturer part number, not by photograph. Factory reserves the right to change specifications, appearance, components, and colors without notice.
HydraMaster 000-163-603SL Live Solution Hose Reel Assembly
The HydraMaster 000-163-603SL is an OEM live solution hose reel assembly designed for use with compatible HydraMaster HydraCradle truckmount carpet cleaning systems.
This reel is designed for managing 1/4-inch inside diameter high-pressure solution

HydraMaster 000-163-603SL 14 Inch Solution Hose Reel - Live Action Manual Rewind Hose Not Included

hose used to deliver heated cleaning solution from the truckmount to the cleaning wand or other solution-powered cleaning tools.
Product Photograph Identification
The orange hose reel identifies the solution reel assembly associated with this listing. The remaining equipment is shown for reference only.

- Orange Reel: 1/4" ID high-pressure solution hose reel.
- Green Reel: Freshwater garden hose reel (not included).
- Black Reel: Vacuum hose reel (not included).

Important: This listing is for the HydraMaster 000-163-603SL live solution reel assembly only. The complete HydraCradle system, vacuum reel, garden hose reel, water tank, and surrounding equipment are not included. The orange solution hose shown is illustrative; hose inclusion has not been confirmed.
