Shampoo Tanks
Won’t crack, leak or dent. Heavy-duty poly construction makes this tank so durable that it can withstand temperatures from -40° to 200°+F without cracking, leaking or becoming brittle. The universal design allows for quick and easy installation on all style floor machines, including the Clarke, Windsor, NSS, Minuteman and Tennant models. An extra wide opening allows for spill-free filling. 5 year warranty on tanks.

Rotationally Molded Tanks
U.S. Products manufactures heavy duty poly construction shampoo tanks in various colors and for various models of floor machines. We also carry a full line of chemical solutions for wet or dry cleaning of carpet and upholstery.
