Manufacturer: Winco Generators

Home Power-HPS6000HE-Bi-Fuel-Portable Generator

HPS6000HE
Winco's HPS6000 is a high quality generator for the home owner who always wants to have power available. The dependable Honda GX340 is fitted with a dual carburetor which allows the engine to operate on gasoline, or natural gas. Switching between fuels is quick and simple. When this generator is combined with a manual transfer switch it powers essential circuits in your home during outages but remains mobile enough for a trip to the cabin.

This model was formerly a Tri fuel generator, however is no longer manufactured as such, for a TRI-FUEL REPLACEMENT, see the HPS9000VE.
