- Fits standard 1.5" ID vacuum hose
- 1.5" slip cuff x 1.5" hose thread
- Used on carpet cleaning extractors, truckmount hoses, portable machines, and vacuum recovery hoses
- Common replacement for worn, cracked, loose, or missing hose cuffs
- Thread-on design installs without glue on most standard 1.5" vacuum hoses

Fitment Notes

- This cuff screws over the outside of standard 1.5" vacuum hose.
- The slip end is designed to connect to 1.5" vacuum tools, wands, hose joiners, and machine ports.
- Measure your hose and connection before ordering. Vacuum hose is commonly measured by inside diameter.
- Color may vary by production run: tan, black, gray, or similar. Color is not guaranteed.

When Should This Cuff Be Replaced?

- Vacuum hose keeps falling off the wand or machine.
- Old cuff is cracked, split, flattened, or leaking vacuum.
- Threaded hose end is stripped or no longer grips the hose.
- You are building or repairing a 1.5" vacuum hose assembly.

Installation Tip
Remove the old cuff by twisting it counterclockwise from the hose. Install the new AH42 cuff by threading it clockwise onto the hose until tight. If the hose end is stretched or damaged, trim the hose back slightly before installing the new cuff. Some cuffs are glued on so you can use a stake knife to cuff off the glue cuff and screw on this new replacement.
