Manufacturer: TriPlex Technical Services

TriPlex Technical Services GC-SPT, Spot Solv Water-Based Carpet & Upholstery Spot Remover, 1 Gallon

Description

TriPlex Technical Services GC-SPT Spot Solv is a powerful, water-based, and environmentally friendly spot remover engineered to tackle severe, stubborn stains across residential and commercial carpet, upholstery, and fabric surfaces. Its advanced versatile formula deeply penetrates and breaks down tough, embedded soils without damaging sensitive fibers, delivering high-performance stain removal while supporting safer, eco-conscious cleaning routines.

Features

- Eco-Friendly Water-Based Formula: Formulated to break down severe stains while minimizing environmental impact and supporting safer indoor application.
- Versatile Surface Compatibility: Safe and effective for use on carpets, upholstery, fabric furniture, automotive interiors, and other textiles.
- Deep Stain Penetration: Rapidly targets and emulsifies tough, embedded soils, grease, spills, and heavy traffic spots.
- Commercial-Grade 1 Gallon Size: Economical bulk jug designed for high-volume maintenance routines in commercial facilities or residential properties.
- Residue-Free Cleaning: Cleans thoroughly without leaving sticky or dirt-attracting residues behind, keeping fabrics cleaner longer.

GC-SPT

Product Name

Spot Solv Water-Based Carpet & Upholstery Spot Remover

Container Volume

1 Gallon (128 fl. oz.)

> TriPlex Technical Services GC-SPT, Spot Solv Water-Based Carpet & Upholstery Spot Remover, 1 Gallon

TriPlex Technical Services GC-SPT, Spot Solv Water-Based Carpet & Upholstery Spot Remover, 1 Gallon

Formulation

Water-Based, Environmentally Friendly

Recommended Applications

Carpet, Upholstery, Fabric Surfaces, Automotive Textiles

Use Case

Residential and Commercial Spot Cleaning

Directions

- Test for colorfastness in an inconspicuous area before initial application.
- Remove any excess loose soil or liquid spill from the affected area prior to treatment.
- Apply Spot Solv directly onto the stain, ensuring thorough coverage of the spot.
- Allow the solution to dwell for 2 to 5 minutes to penetrate and break down embedded soils.
- Gently blot the area with a clean, absorbent white cloth or towel working from the outside of the stain inward.
- Rinse or extract with clean water if required, and allow the fabric or carpet to dry completely.
