24x119 Flat Mount Trifold Design Ramp---LT30-24-119

All of our Ramp Systems provide protection for your employees and equipment by eliminating the danger of lifting in and out of vehicles. Our systems are proven to increase your job efficiency and reduce the cost of expensive equipment damage. Create for yourself a professional appearance with a Steam Brite Ramp System.

The LT30 Tri-fold Ramp is a flat mounting system that mounts on van and trailer flat surface floors. It folds up to store vertically inside the vehicle. Designed with shallow load angles makes this the ideal system for loading larger equipment.

Capacity (lbs.) 1000

FEATURES & BENEFITS

- Flat surface mount
- Ramp stores vertically inside the vehicle
- Adjustable leg gives the option for shallow load angles
- Can be removed in under a minute
-

RAMP CAPACITY RATINGS
There are many methods that are used to give a ramp its loading capacity rating. Do not be fooled by the numbers. Our ramps are rated using a footprint 6" wide by 16" long.
Pressure is applied to the center of the ramp with this footprint. We then apply a three times safety factor to arrive at the weight our ramps are capable of loading safely. This gives you a true capacity rating that has the safety of you and your employees at heart.
Ask your ramp supplier how they arrive at their capacity rating.
