Pros Choice 3325C, APE Low Moisture Cleaning Solution, 4/1 Gallon Case

Model Number: 3325C

Pros Choice 3325C, APE Low Moisture Cleaning Solution, 4/1 Gallon Case

Manufacturer: ProsChoice

APE Solution is the newest advance in the evolution of high performance Low Moisture Cleaning Science. APE Solution is significantly different from multipurpose Low Moisture Cleaning chemicals in that it is designed specifically to maximize the Applied Physics that are functioning in bonnet cleaning environments.

You will immediately notice that it is not as foamy as typical Low Moisture Products. This is because foam retards the rapid migration of soil from the carpet into the cleaning pad.

You will also notice that Cleaning Solution will remove soil that multiple cleanings by any other method could not begin to remove, especially when catalyzed.
