Description

The next-generation solution, this innovative concrete and terrazzo restoration and polishing system works on most standard floor machines, delivering superior results in less time, saving money. Removes light coatings such as worn sealers and floor finishes on concrete and terrazzo surfaces. Applies a uniform scratch pattern throughout the floor creating a more even and open finish using only water, no dangerous chemicals required. No need to replace multiple blades that can result in damaged hardware or improper installation. Reorder a new tool once the black nylon wear indicator is visible. Continue to use the current tool until the new one arrives.

Preps concrete and terrazzo by applying a uniform scratch pattern throughout the floor creating a more even and open finish using only water, no dangerous chemicals required.
