NON RETURNABLE

Description

The next-generation solution, this innovative concrete and terrazzo restoration and polishing system works on most standard floor machines, delivering superior results in less time, saving money. Sets concrete or terrazzo floors to a smooth and consistent finish using water only, no dangerous chemical required. Have floors ready for polish in as quickly as 6 passes. This system uses fewer tools resulting in faster results. No need to replace multiple blades that can result in damaged hardware or improper installation. Reorder a new tool once the black nylon wear indicator is visible. Continue to use the current tool until the new one arrives.
