Clean Storm AC76, 2-Inch OD Stainless Steel Vacuum Hose Y-Connector for Truckmount Carpet Cleaning Systems, AX01

Model Number: AC76

Clean Storm AC76, 2-Inch OD Stainless Steel Vacuum Hose Y-Connector for Truckmount Carpet Cleaning Systems, AX01

Manufacturer: Clean Storm

Clean Storm AC76, 2-Inch OD Stainless Steel Vacuum Hose Y-Connector for Truckmount Carpet Cleaning Systems

Description

Clean Storm AC76 2-inch OD stainless steel vacuum hose Y-connector splits or combines high-airflow suction lines for truckmount carpet cleaning, water extraction, and auto detailing rigs. Built from 100% heavy-duty stainless steel for maximum corrosion resistance and durability in harsh commercial environments, this 9-3/4 inch splitter optimizes vacuum performance across dual extraction lines.

Features

- 100% premium stainless steel construction delivers exceptional rust resistance, structural strength, and a lifetime of dependable commercial use.
- Designed with 2-inch outer diameter (OD) and 1-7/8 inch inner diameter (ID) inlets and outlets for high-airflow vacuum conveyance without restriction.
- Compatible with standard 2-inch vacuum hoses and adaptable to 1-1/2 inch vacuum hose setups using an optional expanded hose cuff.
- Precision-welded Y-configuration smoothly merges or divides airflow lines to maximize suction efficiency across dual tools or operators.

Applications

- Truckmount carpet cleaning and deep extraction systems operating dual wand setups.
- Commercial and automotive detailing rigs requiring split vacuum lines for simultaneous upholstery and carpet extraction tools.
- Flood restoration and water damage extraction equipment requiring heavy-duty debris and moisture routing.
- Industrial vacuum hose management where splitting a primary 2-inch vacuum line is necessary.

Specifications

Brand / Manufacturer
Clean Storm

Model / Part Number
AC76

Clean Storm AC76, 2-Inch OD Stainless Steel Vacuum Hose Y-Connector for Truckmount Carpet Cleaning Systems, AX01

Primary Material
100% Stainless Steel

Outer Diameter (OD)
2 Inches

Inner Diameter (ID)
1 7/8 Inches

Overall Length
9 3/4 Inches

Overall Width
7 Inches

Core Application
Vacuum Hose Splitter / Y-Connector

Tips and Additional Information
Ensure all vacuum hose connections are fully seated over the 2-inch OD ports and secured with appropriate hose cuffs or clamps to prevent vacuum leaks and maintain peak water lift. Periodically inspect the interior Y-junction for accumulated debris, lint, or hair build-up to maintain unobstructed airflow. When stepping down to 1-1/2 inch vacuum hoses, utilize a properly fitted expanded hose cuff (such as part AH46) for a tight, secure seal.
Frequently Asked Questions
Q: Can I use this Y-connector with 1-1/2 inch vacuum hoses?
A: Yes, while the ports feature a 2-inch OD / 1-7/8 inch ID optimized for 2-inch hoses, you can easily adapt it for use with 1-1/2 inch vacuum hose lines by incorporating an optional expanded hose cuff.
Q: Will the stainless steel rust when exposed to chemical extraction detergents?
A: No, the unit is fabricated from 100% high-grade stainless steel, making it highly resistant to rust and chemical degradation commonly associated with carpet cleaning presprays and extraction solutions.
Q: Can this connector be used on the pressure side of a pump?
A: No, this component is engineered specifically for vacuum airflow and suction lines only. It is not rated or designed for high-pressure water or chemical solution delivery lines.
Warranty & Safety Information
Clean Storm components are backed by a standard manufacturer warranty covering defects in materials and workmanship under normal commercial use. Warranty coverage is immediately voided if the product is subjected to unintended applications (such as high-pressure fluid pumping), unauthorized modifications, physical abuse, or damage resulting from chemical corrosion caused by unapproved hazardous solvents. Always ensure equipment is powered down and disconnected before servicing vacuum lines.
