DSC Products Restore Acid Spotter and Debrowning Agent 2 Cases - 8 Gallons

Manufacturer: DSC Products

Acid Spotter – Debrowning Agent

- A mild acetic acid product that removes browning and most tannin stains, neutralizes alkali residues and serves as an overall acid spotter.
- Restore has a distinct acid odor that dissipates when the acid evaporates.
- Use to restore a browning problem or add to your cleaning solution to prevent browning.
- Dilute 1:2 parts water for correcting a browning problem and 2 oz. per gallon of solution for prevention.
- Drying quickly always helps prevent browning.
- A clear, colorless liquid with a distinct acetic acid odor.
- pH – less than 3.
