Sandia 60-1000 FORCE 14 Upright Vacuum 12 Amp 1000 Watt 14in Path 4000 RPM With Tools Freight Included

Manufacturer: Sandia Plastic

FORCE 14 Upright Vacuum

Modular design and construction of the Force 14 makes maintenance fast and easy. A powerful 12 amp motor produces 74.8 inches of vacuum lift, cleaning carpets in just one pass. The motor is dust protected with an in-line filter for a reliable, long life. A separate 1.3 amp motor spins the roller brush bar at 4000 RPM. This motor is designed with overload protection, a non-slip drive belt and an electronic sensor to detect brush bar blockage or belt breaks. High-efficiency filtration collects the finest dust in a 4.75 quart dual-wall micro-filtration bag. When the vacuum handle is in the upright position at startup or when vacuum tools are being used, the roller brush motor automatically turns off to protect the carpet. The balanced center of the gravity gives the Force 14 a light handle weight and prevents tipping when using accessories. The telescopic wand with stretch hose extends up to 9-feet for easy cleaning of high, low and tight spaces. Manual, 4-position carpet height adjustment. The polished stainless steel glide plate lets the Force 14 ride gently on the carpet. Non-marking rear wheels make transport easy. Includes (1) 50-foot interchangeable safety power cord with strain relief.

Includes: Upholstery brush, dusting brush and crevice tool.

Specifications

Model No: 60-1000
Motor: 12 amp, 1000 Watt
Cleaning Path: 14-Inch
Carpet Height Ajd: 4-Position
On-Board Tools: Yes
Furniture: Yes
Filtration System: Standard (HEPA Available)
Cord Length: (1) 50-Foot
Sound: 78 dBA
Brush Speed: 4000 RPM
UL Approved: Yes (Commercial Use)
OSHA Compliant: Yes
Weight: 19.8 lbs.
