Nikro 860996 Zipwall Kit 20

Model Number: 860996

Nikro 860996 Zipwall Kit 20

Manufacturer: Nikro

ZIPWALL KIT 20

The Kit 20 poles extend from 6' 9" to 20 feet. The spring loaded plunger called the jack screws onto the end of the pole and adds a foot of reach. This product can actually be used in areas with a ceiling height up to 21 feet.
The poles can be placed 8 to 10 feet apart. If there is any significant air movement that pushes the plastic you will need to pull them in closer together, anywhere from 4 to 8 feet.
If the poles are placed closely together you may need two or more people to attach them to the plastic and raise them into place.
The GripDisk™ slide stoppers should always be used especially on hard surfaces. Two GripDisk™ slide stoppers come in every Kit 20 package.
Package Includes:

- 2 - 20 foot extension poles
- 2 - grip disks
- 2 - tethers

Poly Sheeting Sold Separately.
