Heating

2000 Watt Heater

Rear Wheels

10in Semi-pneumatic

Auto Fill And Auto Dump

No

The best thing about the Clean Storm Carpet Extractor that makes it unique from other carpet extractors is the fact that it is a much lighter machine. You will find this 6 gallon machine easy to move with its size and weight. You'll also find it packs a punch when it comes to cleaning power. This carpet machine comes with a 6 gallon fresh water tank and a 6 gallon waste tank. It has dual 2 stage vacuums and a 300 PSI pump. This machine has a 2000 Watt Heater. This machine will operate on dual 15 amp breakers. Here at SteamBrite Supply, this is our most popular rental machine. Compact, transport in any truck, car, or on the seat. Since it plugs into 15 amp breakers you do not have to take time to locate 20 amp breakers to use the machine. Plugs in everywhere!

In the world of Carpet Cleaning and Auto Detail Extractors you will find you will have to determine how much power is required to use your machine. Some machines need:

- Single 15 amp breakers
- Dual 15 amp breaker
- Single 20 amp breaker
- Dual 20 amp breaker

This machine is the strongest you can have in the dual 15 amp breaker category!

This machine will clean 50 ft away from the machine with the standard 1-1/2" ID vacuum hose but can be custom changed to a 2" vacuum port using 2" vacuum hose and clean 100 ft away!

>

This machine produces 155" of Water Lift and 125 CFM (15,500 Vacuum Units)
This means that not only can you use this machine as a compact auto detail machine but it also packs enough power to clean homes, carpets, mattresses, drapes, and more...

No need to make the selection of carpet cleaning wands from the smaller 8" or 10" wide tools. This machine can operate professional 12" wide cleaning wands!

With 300 psi, this gives you the ability to use internal spray and bi-directional upholstery and auto detail cleaning! Being able to clean both forward and back is actually more than twice as fast!

Zero over-spray, cleans both directions, dries faster, and better deep stain removal with the "park and steam" technique. [Click Here for a search for "Internal Spray."](#)
