HydroForce MB120LPC E-TES Low Profile Carpet Flood Restoration Drying System Bed Bug Heater 1602-3564

Manufacturer: HydroForce

HydroForce MB120LPC: E-TES Low Profile Carpet Flood Restoration Drying System - Bed Bug Heater - Free Shipping Free Air Mover 1602-3564

Description

Directed Heat Drying is a precise science-based method of heating water. Every 18 degree temperature increase in water doubles its vapor pressure and dramatically increases evaporation. E-TES Smart Dry (SD) is the perfect tool to raise water temperature, increasing evaporation. E-TES is effective on jobs that target specific problem areas, and it can be used as a compliment to conventional drying.

Features

- Smaller profile allows the E-TES to fit into tight areas, such as crawl spaces
- Light weight, only 30 lbs.
- Built-in ergonomic handles make it easier to carry multiple E-TES units
- Stackable
- Staigh through airflow, more airflow and less internal turbulence
- Micro-processor
- LCD display
- Built-in hour meter
- Real time clock
- Humidity and temperature sensor
- NEC® compliant
- Dual circuit indicator (120 volt)
- GFCI protection
- Airflow and triple heat safety shut off
- 50' GFCI cord

Free air mover of our choice of size and color.

Bed Bug Treatment

>

It is important to note that when you use a heated drying system, you will need to make sure that the outside air is under 50% RH and you will have to also exhaust air outside the building during the service using a ventilation fan like the one below. Bed bugs exposed to 113°F will die if they receive constant exposure to that temperature for 90 minutes or more. However, they will die within 20 minutes if exposed to 118°F. Interestingly, bed bug eggs must be exposed to 118°F for 90 minutes to reach 100% mortality.

Optional

Dristorm Eco GFCI With Breaker Carpet Restoration Air Mover 3 Speed
1/3HP Centrifugal Fan Freight Included
the above unit will need a full size air mover to make it work correctly.
The free gift air mover is too small.

Shazaam: DriStorm Blast Axial Air Mover 1 HP
