Model Number: SBM15X20

Electric Conveter 3 Wire 15 amp 120 volt Male Plug 5-15P to 3 Wire 20 amp 120 Volt Receptacle Adapter 5-20R SBM15X20

Manufacturer: Clean Storm

(NEMA 5-15P) 3 Wire 15 amp 120 volt Male Plug to (NEMA 5-20R) 3 Wire 20 amp 120 Volt Receptacle with 20 amp breaker.

Temporary power distribution box
Construction spider box
Used for many electrical pressure washers that have a 20 amp male plug on the power cord.

Not every job site has a 20 amp outlet so you can use this converter to plug your 20 amp appliance into the 15 amp outlet.
Prevents you have to cut off the GFCI protection built on your pressure washer and plug into any traditional wall outlet.
Please note that you will have to lower the pressure on a pressure washer so it is drawing less than 15 amps on some outlets!
