Goliath
Quad Vac Flood pumper
The Industries Strongest Water Extraction Machine!
Tank Size: 20 gallon
Body Construction: Fiberglass box for durability,
Vacuum Motors: Four 2 stage vacuums (8 stages total will operate 200 ft of 2" vacuum hose!) Vacuum motors are configured: each pair is in series and then both pairs are in parallel for the best of both worlds of high cfm and high inches of lift.
Automation: 30 GPM STAINLESS STEEL sump pump with water level sensor

Steambrite Supply

CleanStorm SBM-GO-Hybrid Goliath Flood Pumper 27gal 8 Stage Vacs GAS Pump HEATED Pressure Washer Rotovac 360i ETM

(machines automatically dumps the dirty water as you clean for non stop production) Draws only 4 amps.

Features:

- Dual ball float/standpipe,
- Clear dome lid on slotted hinged,
- Dual 50 ft. 12-3 power cords,
- Circuit locator,
- 12" rear wheels and swivel casters in the front.
- Front mounted GFI w/ waterproof cover.
- Built in Auto Defoamer with adjustment knob.
- Dual waste water discharge - Garden hose for cleans and 1-1/2" dump hose for floods (your choice)
- Machine will operate on either one or two power cords (see below)
- When the machine is operating on one power cord you have the option to run the vacuum motors in series or parallel.
- Made in the USA

Technical Specification:

- Primary cord (20 amp) runs (2) vac motors in air series with ball float shutoff and sump pump. If a secondary circuit is not available, machine would perform on this cord. Wired with an in-line GFI and cooling fan.
- Secondary circuit (15 amp) runs the (2) other vac motor in air series with a ball float shutoff and check valve.
- 2" vacuum intake.
- Stainless steel screen lint catch to protect your auto dump pump.
- Garden hose cam lock adapter for carpet and tile cleaning
- 1-1/2" cam lock adapter for flood restoration (seen in photo below)
- (5) Green lighted splash proof rocker switches.
- Blue tank/Grey base
- 200 C.F.M.'s
- 170" of Lift (normally dual 2 stage in series would only acheave 155" of lift but these MaxVac vacuum motor are acualling doing 170" in series! This is one of the reasons we chose this set up. These are not inflated numbers!)
- 42,500 vacuum units (maximum 170 inches of lift X maximum 250 CFM) make this one of the strongest electric machines on the market
- Gallon of liquid defoamer can be set on top of extractor on jobs where you need to cut some suds. (auto dump systems only dump water and not bubbles)
- Pressure washer test results: With the Rotovac 360i by itself you can turn the pressure washer down to 600 psi, with the Rotovac 360i and a Dustdowner with 02 jet installed you can turn the pressure washer down to 400 psi, with a Rotovac 360i and a Dustdowner with 01 jet installed you can turn the pressure washer down to 500

Steambrite Supply

CleanStorm SBM-GO-Hybrid Goliath Flood Pumper 27gal 8 Stage Vacs GAS Pump HEATED Pressure Washer Rotovac 360i ETM

psi, the burner lights and heats water in all three test results.

Package Advantages:
Only 3 power cords required (two for the Goliath and one for the Rotovac 360i)
Goliath is more than traditional auto pump out systems with more vacuum, can be converted into air duct cleaning machine, can be used for water damage clean up and flood restoration because of the dual discharge port and 30 gpm pump.
Clean all surfaces with one machine and clean them as HOT as you feel comfortable with. Note this machine is super HOT and dangerous. It is so hot that it will melt gum out of carpet without gum remover. It is so hot that if you lay the pressure hose across the customer's lawn, it will KILL the grass! It is so HOT that you can burn yourself through the jacket of the pressure hose. In most cases you will not use this unit turned up to 250 degrees. It is scary. The good thing is it does have a dial on it and you can turn it down. Quad 2 Stage Max Vac Vacuum motors are mounted vertical for longer bearing life.

Unit Measurements:
- Handle height is 39". Machine dimensions" 41" H x 24" W x 30" L
- Weight (assembled) = 86 lbs. w/out cords.

Goliath Advantages:
1. 27 gallon recovery tank
2. Auto defoamer needle valve
3. 2" vac port will run either 2" or 1-1/2" vacuum hose
4. The highest lift and highest CFM extractor on the market. Nothing comes close. This machine is impressive when it comes to suction. This machine will run longer hose lengths and dry carpet better than any other electric machine that is operating on two power cords.
5. Will operate on one 15 amp power cord, will operate on two 7 amp power cords, will operate on two 15 amp power cords, will operate on two 20 amp power cords. Just turn off features in aplications where you have less power availible.
6. Stainless steel dump valve is another industry first. You will not be able to brake it or clog it or wear it out.
7. Dual port water pump out discharge. Choose between dumping out a garden hose or out a 1-1/2" vacuum hose, your choice.
8. Switch plate cover will keep your water resistant switch covers in place. Unlike some other brands the clear water protection cover can fall off once the machine gets old or if it gets knocked around.
9. Now availible with an optional 500 psi PumpTec pump in it to use as a carpet cleaning machine too Add $750

Auto Defoamer with adjustment knob

QUAD TWO-STAGE VACUUM MOTORS IN SERIES/PARALLEL
AS PER MANUFACTURERS RECOMMENDATION, MOTORS ARE MOUNTED IN A WAY THE BALANCES THE VACUUM (lift) AND THE VOLUME (cfm), BY MOUNTING THE VACS IN SERIES PAIRS THEN THE PAIRS ARE MOUNTED IN PARRALLEL. THIS BALANCES THE LIFT AND CFM, GIVING BETTER PERFORMANCE THAN HAVING ALL 4 MOTORS IN SERIES (high lift but nominal cfm) OR ALL 4 IN TANDEM (plenty cfm but wimpy vacuum). SO FAR ONLY STEAMBRITE MFG GIVES YOU THIS SUPERIOR DELIVERY SYSTEM FOR 4 VAC MOTORS.
