Model Number: 1.004-022.0

Prochem 1.004-022.0 Carpet Flood Restoration Air Mover Windsor Century 400 LAM3 230 Volts for International

Manufacturer: Prochem

Prochem Windsor Century 400 1/2 Hp Hi CFM Air Mover 3with carpet clamp (220 - 240 volt airmover)

Carpet Clamp Air mover is no longer Yellow; New default color is Century 400 gray or Graco Legacy black or Prochem blue but color is not guaranteed. 3 speed heavy duty switch mounted in protected area; hi 2500 CFM, low mass, smooth running blower design; built-in no nonsense carpet clamp. Rust free intake screen and rust free blower wheel. 3 position molding with feet to allow use in any position. Built in cord wrap. This unit is guaranteed to blow harder than any other 1/2 hp air mover. Draws 7.5 amps on high.

Why do we like this air mover? This is the air mover of choice for our shop here at SteamBrite Supply for our 100 + degree summers because this air mover blows harder than all the other air movers!

How come we do not know the color? Karcher is the parent company for Prochem, Century 400, Graco, Legacy, SprayMart, Smart1Source, Hotsy, Shark, Windsor Industries and many other company names. These air movers are made by the containers load in large color increments. We have no way of knowing the how orders are shipped.

Set yourself apart from the rest with the Legacy LAM3 Air Mover. Water damage happens when least expected so arm yourself with the best air mover to say goodbye to unwanted water. Never before have so many technically advanced features been combined in one air mover! Prochem's powerful Apache air movers use a large 10" blower wheel to generate maximum air flow and static pressure. The extended motor bracket allows a larger motor side air inlet. Apache's superior ventilation eliminates overheating in hot or humid conditions. A turbulence-free housing design incorporates two Venturi inlets to maximize air flow into the center of the blower wheel, minimizing air backflow. The top-mounted recessed switches reduce damage from handling and storage. More air flow means reduced drying times by up to 50%!

The LAM3 is a powerful, light weight, versatile 3 speed air mover that reduces carpet drying times by up to 50%.

- Built-in carpet clip makes it easy to dry floors under carpet
- Ideal for restoration work.
- Sturdy, four point motor mount withstands heavy use & rough handling
- Easy to carry and move. Light weight with a balanced offset handle - just 31lbs!
