Model Number: SBM-GO-H

DriStorm SBM-GO-H Goliath Flood Pumper 26gal 4/2 Stage Vacs and Pressure Washer Recovery 120v With 14000 BTU Heater

Manufacturer: Shazaam

Goliath

Quad Vac Flood pumper with PreHeater

The Industries Strongest Water Extraction Machine!

Tank Size: 26 gallon

Body Construction: Fiberglass box for durability,

Vacuum Motors: Four 2 stage vacuums (8 stages total will operate 200 ft of 2" vacuum hose!) Vacuum motors are configured: each pair is in series and then both pairs are in parallel for the best of both worlds of high cfm and high inches of lift.

Automation: 30 GPM STAINLESS STEEL sump pump with water level sensor (machines automatically dumps the dirty water as you clean for non stop production)

Draws only 4 amps.

Heater: The 14,000 BTU heat runs off the heat from the 4 vacuum motors that produce the 180 degree air. A full 30 degree F Rise with this heater! Why do we have a heater for a machine that does not have a water pump in it? This is for our customers that are using pressure washers and using the heater to preheat the water.

Whether using a cold pressure washers or hot, this heater is beneficial. For customers using a cold pressure washer they usually hook to the customers hot water supply and transfer this out to the truck, the heater re-boost the water temperature. If you are using a heated pressure washer or a Little Giant propane heater, this system cuts your annual water heating fuel in HALF. This heat exchanger heater is mounted under the Goliath and has a panel mounted male and female garden hose connection on it. For pressures under 100 psi (before the pump). See below for examples of accessories you might consider.

Features:

- Dual ball float/standpipe,
- Clear dome lid on slotted hinged,
- Dual 50 ft. 12-3 power cords,
- Circuit locator,
- 12" rear wheels and swivel casters in the front.
- Front mounted GFI w/ waterproof cover.
- Built in Auto Defoamer with adjustment knob.
- Dual waste water discharge - Garden hose for cleans and 1-1/2" dump hose for floods (your choice)

>

- Machine will operate on either one or two power cords (see below)
- When the machine is operating on one power cord you have the option to run the vacuum motors in series or parallel.
- Made in the USA
- 14,000 BTU Free Heat Exchanger Water Heater

Technical Specification:

- Primary cord (20 amp) runs (2) vac motors in air series with ball float shutoff and sump pump. If a secondary circuit is not available, machine would perform on this cord. Wired with an in-line GFI and cooling fan.
- Secondary circuit (15 amp) runs the (2) other vac motor in air series with a ball float shutoff and check valve.
- 2" vacuum intake.
- Stainless steel screen lint catch to protect your auto dump pump.
- Garden hose cam lock adapter for carpet and tile cleaning
- 1-1/2" cam lock adapter for flood restoration (seen in photo below)
- (5) Green lighted splash proof rocker switches.
- Blue tank/Grey base
- 170" of Lift (normally dual 2 stage in series would only acheave 155" of lift but these MaxVac vacuum motor are acually doing 170" in series! This is one of the reasons we chose this set up. These are not inflated numbers!)
- 42,500 vacuum units (maximum 170 inches of lift X maximum 250 CFM) make this one of the strongest electric machines on the market
- Gallon of liquid defoamer can be set on top of extractor on jobs where you need to cut some suds. (auto dump systems only dump water and not bubbles)
- Includes hose mount lint filter.

Factory Installed
Standard Valterra: Gate Valve 1.5in Replacement Dump Valve H225 Drain
Valve

OPTIONAL:OPTIONAL:

1. Add a booster port to the lid to add even more vacuum later on \$100

Quad 2 Stage Max Vac Vacuum motors are mounted vertical for longer bearing life.

Unit Measurements:

- Handle height is 39". Machine dimensions" 41" H x 24" W x 30" L
- Weight (assembled) = 96 lbs. w/out cords.

Goliath Advantages:

1. 26 gallon recovery tank
 2. Auto defoamer needle valve
 3. 2" vac port will run either 2" or 1-1/2" vacuum hose
 4. The highest lift and highest CFM extractor on the market. Nothing comes close. This machine is impressive when it comes to suction. This machine will run longer hose lengths and dry carpet better than any other electric machine that is operating on two power cords.
 5. Will operate on one 15 amp power cord, will operate on two 7 amp power cords, will operate on two 15 amp power cords, will operate on two 20 amp power cords. Just turn off features in applications where you have less power available.
 6. Stainless steel dump valve is another industry first. You will not be able to brake it or clog it or wear it out.
 7. Dual port water pump out discharge. Choose between dumping out a garden hose or out a 1-1/2" vacuum hose, your choice.
 8. Switch plate cover will keep your water resistant switch covers in place. Unlike some other brands the clear water protection cover can fall off once the machine gets old or if it gets knocked around.
 9. Now available with an optional 500 psi PumpTec pump in it to use as a carpet cleaning machine too.
- Belly-Mount Heater Exchanger Muffler

Owner's Manual

POWERFUL 30 GPM Stainless Steel AUTO DUMP Pump

This unit sold as Machine Only with power cords and lint filter
Color is not guaranteed. The current color is Blue.

Auto Defoamer with adjustment knob

QUAD TWO-STAGE VACUUM MOTORS IN SERIES/PARALLEL
AS PER MANUFACTURERS RECOMMENDATION, MOTORS ARE MOUNTED IN A
WAY THE BALANCES THE VACUUM (lift) AND THE VOLUME (cfm), BY
MOUNTING THE VACS IN SERIES PAIRS THEN THE PAIRS ARE MOUNTED IN
PARRALLEL. THIS BALANCES THE LIFT AND CFM, GIVING BETTER
PERFORMANCE THAN HAVING ALL 4 MOTORS IN SERIES (high lift but nominal
cfm) OR ALL 4 IN TANDEM (plenty cfm but wimpy vacuum). SO FAR ONLY
STEAMBRITE MFG GIVES YOU THIS SUPERIOR DELIVERY SYSTEM FOR 4 VAC
MOTORS.

MACHINE ONLY!! For cost w/accessories, see package options!
One Year Warranty Included, Optional add 2 or 4 more years to the warranty!

Receive half price shipping if you pick up at SteamBrite San Antonio, TX
