Windsor Katana AirFoil Kurve 13in Carpet Cleaning Wand [8.632-900.0] FREIGHT INCLUDED 8.633-100.0

Manufacturer: Windsor Industries

Katana Wand
Windsor AquaFoil Wand—Aluminum wand engineered specifically for increased vacuum performance and operator comfort.

• Designed for high velocity with no flow loss, drag of inefficiency.
• Stainless steel manifold evenly distributes air flow and suction across entire width of the vac shoe.
• 2 x .01 jets. cleans best at 350 to 500 psi (optional jet sizes available for other pressures)
• Low profile allows for cleaning under edges.
• Reduces operator fatigue by allowing upright comfortable operation. Top mounted assist handle forces tech to stand upright for better posture.
• Can be used with any dual two stage or large portable or truckmount cleaning system (15,000 vacuum units or larger)
Custom height adjustments for all carpet cleaners 5'-7" through 6'-2" and even taller.

Weighing only 5.5 lbs, the Windsor Katana Airfoil Kurve Wand offers maximum comfort and maximum carpet cleaning performance to the carpet cleaner.

The Kitana AirFoil Kurve can be easily customized to every carpet cleaner’s preference, by simply adjusting the handle position as well as the head of the wand, delivering preferred body ergonomics and stroke range specific to their needs and comfort.

Boasting a roto-molded 13” wide head with a low-profile contour, the Kitana AirFoil Kurve Wand can easily reach under obstructions.

Cleans carpet 10% faster than other 12" wide wands.

Designed for maximum velocity and even surface flow on carpets by utilizing specialized engineering computer software, the Windsor Kitana AirFoil Kurve delivers improved cleaning performance for superior cleaning results.
