Model Number: 10-0890

Westpak 10-0890 Carpet Cleaning Wand Glide 12in Teflon For Low Profile Tools, 60-0213

Manufacturer: WestPak USA

Westpak 7/16" ID X 12" Teflon Wand Glide for Low Profile Wands

*** Replaced by factory as updated sku [60-0213] / Better fit!

Description

Inside clearance of glide is 7/16"

Air slots improve air flow over older hole design.

Note:

- You might have to silicone the glide all the way around the perimeter for tighter air seal.
- Use bench grinder or knife to trim fit edges and corners as needed.

Questions and Answers

Question: I have a question regarding the glide on my wand. What do you recommend I use to create a seal and semi-permanently affix the glide to the wand? I want to be able to remove it when it wears out without having a permanent residue of glue on the wand, but at the same time I can't have it falling off all the time. Do you have a recommendation? Thanks.

Answer: I used a clear 100% silicone sealant (in a caulk gun). Clean stainless steel head with rubbing alcohol first. Apply the silicone and then set the glide. When you want to change out the glide (after 6 months), you can score the silicone with a knife and reclean and re-seal the wand with a new one. See photos below for example of a glide that has been sealed.

Optional

Liquid Nails Silicone Premium Universal Sealant LS-205 77027045031
