Clean Storm H184 Truckmount Vacuum Hose, 2in ID x 25ft, Double-Lined, with Cuffs, Double Lined Esteam 260-238-25 540073

Model Number: H184

Clean Storm H184 Truckmount Vacuum Hose, 2in ID x 25ft, Double-Lined, with Cuffs, Double Lined Esteam 260-238-25 540073

Manufacturer: Clean Storm

RECOMMENDED PRODUCT NAME:
Clean Storm H184 Truckmount Vacuum Hose, 2in ID x 25ft, Double-Lined, with Cuffs

RECOMMENDED META TITLE:
2in x 25ft Truckmount Vacuum Hose with Cuffs | H184

RECOMMENDED META DESCRIPTION:
Clean Storm H184 professional 2-inch ID x 25-foot crush-resistant, double-lined vacuum hose with two cuffs. Smooth interior for truckmounts and extractors.
-->

2in ID x 25ft Double-Lined Truckmount Vacuum Hose with Cuffs
The Clean Storm H184 is a professional-grade, crush-resistant vacuum hose assembly for truckmount carpet-cleaning systems, portable extractors and compatible industrial vacuums. The 2-inch inside diameter and smooth interior help maintain airflow, while the double-lined construction provides added durability for daily service work.
Hose size: 2in inside diameter x 25ft long
Construction: Double-lined, crush-resistant flexible vacuum hose
Interior: Smooth bore for efficient airflow
Included: One 25ft hose assembly with two installed 2in cuffs
Standard color: Blue; color can vary by production run
Product Features

- Full 2-inch ID helps support high-volume airflow
- 25-foot section is easy to add to an existing truckmount or extractor hose run
- Double-lined construction for improved wear resistance
- Crush-resistant design helps the hose recover its shape during normal professional use
- Smooth interior reduces airflow turbulence and helps debris move through the hose
- Two installed cuffs make the assembly ready to connect to compatible 2-inch equipment and accessories
- Useful as a vacuum-reel leader, tank-to-filter-box connection or working hose section

Specifications

Steambrite Supply

Clean Storm H184 Truckmount Vacuum Hose, 2in ID x 25ft, Double-Lined, with Cuffs, Double Lined Esteam 260-238-25 540073

Brand
Clean Storm

Part Number
H184

Product Type
Professional vacuum-hose assembly

Inside Diameter
2 inches

Length
25 feet

Hose Construction
Double-lined, flexible and crush-resistant

Interior
Smooth bore

End Connections
Two installed 2in vacuum-hose cuffs

Typical Color
Blue; color is not guaranteed

Common Uses

- Truckmount carpet-cleaning vacuum systems
- Portable carpet extractors with compatible 2-inch vacuum connections

Steambrite Supply

Clean Storm H184 Truckmount Vacuum Hose, 2in ID x 25ft, Double-Lined, with Cuffs, Double Lined Esteam 260-238-25 540073

- Flood-extraction and water-recovery equipment
- Compatible HEPA and industrial vacuum systems
- Vacuum hose reels, filter boxes and waste-tank connections

Part-Number and Fit References
The following numbers have been associated with 2-inch vacuum-hose assemblies or compatible applications. They are supplied to help identify a possible replacement. They do not guarantee identical hose material, color, cuff style, static-control properties or machine-specific fit. Compare the hose diameter, length and required cuff connections before ordering. Most of these related part numbers are single wall construction while are is double wall.

Before ordering: Measure the equipment inlet, hose inside diameter and mating cuff or connector. A nominal 2-inch hose does not guarantee that every cuff will lock directly onto every machine. Reducers, joiners and machine-specific adapters are sold separately.
Care and Use

- Keep the hose as straight as practical to reduce airflow loss.
- Avoid dragging the hose across sharp metal, exposed fasteners or abrasive concrete edges.
- Do not drive over the hose or store it tightly kinked.
- Rinse out recovered debris as needed and allow the hose to drain and dry before storage.

Clean Storm H184 Truckmount Vacuum Hose, 2in ID x 25ft, Double-Lined, with Cuffs, Double Lined Esteam 260-238-25 540073

• Inspect the hose and cuffs regularly; replace components that are split, loose or leaking air.

Application notice: This is a flexible vacuum/air hose, not a pressure-rated solution hose. Do not use it to carry pressurized cleaning solution, fuel, compressed air or hazardous material. Static-conductive or anti-static performance is not claimed unless specifically stated on the hose received.
What Is Included
One Clean Storm H184, 25-foot x 2-inch ID vacuum-hose assembly with two installed cuffs. Hose joiners, reducers, Y-connectors, stainless-steel connectors, reels, filter boxes, extractors and other accessories are not included unless separately selected in the shopping cart.
Product color, cuff style and markings may vary by production run. Display images are for reference. Orders are fulfilled by the Clean Storm H184 part number.
Specifications are subject to change without notice.
