Model Number: 20130517

Clean Storm Waste tank Level Float Switch Soap on a rope look 20130517 8.716-142.0

Manufacturer: Clean Storm

Clean Storm Waste tank Float- Soap on a rope look

Used to repair ACE, Chemspec, SteamBrite Truckmounts as well as other brands  
2 wire design can be used to turn off something or turn on something as the float rises  
(closes/completes circuit on rise).

If you need the float to turn on in the down position, you can zip tie the cord end to be  
the new end cap side.

Please mount so the float can pivot from vertical to vertical.

Can be used in both 12 and 120 volt use.

Note, some float that hook to a solenoid, can have the solenoid magnet flipped over  
on the switch to make you actuation function change function. Example open solenoid  
on close circuit or open solenoid on open circuit.

Compare to current or past OEM associations:  
8.716-142.0
