Pullman Holt Upright Vac Single Motor UV9 Freight Included

Manufacturer: Pullman Holt

UV9 Upright Vacuum
Introducing a new commercial upright vacuum from Pullman-Holt. The UV9 upright vacuum cleaner offers features suitable for commercial environments including retail stores, offices, restaurants, schools, hotels and medical facilities. A powerful 12amp motor is mounted inside of a tough plastic housing and add several steel components that make the UV9 an extremely durable, heavy-duty machine. A steel handle steel roller brush and steel base plate will ensure you receive years of trouble-free service. Yet, the UV9 is still easy to push, even with a full set of onboard tools and attachments for above floor cleaning.
Features:

- 12 amp, twin fan, bypass, commercial grade motor offers powerful, professional suction and long motor life.
- Auto Brush Shut Off protects brush roll from damage due to obstructions.
- Automatic height adjustment adapts to various carpet piles and depths.
- Motor protection system uses thermal overload circuitry to prevent damage due to a clogged hose or filter bag overfill.
