Mosmatic 90.063, High Pressure Washing Filter, 3/8" Mip X 3/8" Fip, Stainless Steel

Model Number: 90.063

Mosmatic 90.063, High Pressure Washing Filter, 3/8" Mip X 3/8" Fip, Stainless Steel

Manufacturer: Mosmatic

Mosmatic 90.063, High Pressure Washing Filter, 3/8" Mip X 3/8" Fip, Stainless Steel
Description
The Mosmatic High Pressure Filter - 90.063 is a compact and efficient solution for protecting your high-pressure cleaning equipment from damage caused by debris and contaminants. Featuring a 3/8" NPTF inlet and a 3/8" NPTM outlet, this inline filter is easy to integrate into existing systems. It ensures reliable performance by preventing clogging and wear in nozzles, swivels, and other precision components ideal for both commercial and industrial pressure washer applications.
Applications

- Pressure washer systems
- Surface cleaners and spray nozzles
- Industrial cleaning equipment
- Preventive maintenance for fluid control lines

Features

- Thread IN: 3/8" NPTF | Thread OUT: 3/8" NPTM
- Filters debris to protect high-pressure system components
- Helps prevent nozzle blockages and internal wear
- Compact design for easy integration
- Enhances system longevity and cleaning performance
- Ideal for hot and cold water systems

Specs
Thread IN: 3/8" NPTF

Thread OUT: 3/8" NPTM

Weight: 0.55 lbs
