Model Number: 20111224

Clean Storm 20111224, 300ft Live Electric Vacuum Double Hose Reel Side Storage Reel, for Truckmounted 12 volt All Sales Final

Manufacturer: Clean Storm

-->

Clean Storm 300 ft Live Electric Vacuum Hose Reel with Side Storage Reel for Truckmounted Carpet Cleaning Machines

Measurements:

Footprint 25 W X 25-1/4D

OVL 36-1/2" Wide X 44" Front to Back X 47-1/4" Tall

89 lbs use weight

Runs off any 12 volt battery

With:

300 ft Live Electric TruckMount Vacuum hose reel (hoses not included),

300 ft Storage Side reel for solution hose or garden hose.

25 RPM (one revolution every 2.4 seconds)

Advantages over other brands:

Includes power cord. This is the only reel we have ever seen on the market that includes some way to connect the reel to the battery.

Includes a reel mounted breaker. Again this is the only electric reel we have seen include this feature.

Bidirectional wind up.

Dual reel. Usually you will find most reels for only the vacuum. Includes free side mount reel for garden hose or solution hose.

Manufactured in San Antonio Texas USA.

100 ft lbs of torque of wind up power!

Shipping 39 X 39 X 17 129lbs. Self installation required.

DCHNE

Note it is the installers responsibility to install a 25-30 amp fuse or a breaker at the point of battery connection and to double insulate your hot wire.

Factory Installed

Clean Storm Panel Mount 30 amp push button resettable breakers 86001910

>

Double insulate means to place your hot wire inside of another hose or jacket before you cable tie it to the frame. Installing a fuse or breaker at the point of battery connection insures that if you rub a hole in the side of the wire the breaker/fuse will trip.

Definitions:

Live reel means the vacuum hose stays hooked to the vacuum through the hub of the reel full time.

Storage reel means you have to remove the hose off the reel for use. The reel is just used to wind up the hose and store it.

Electric means you hook to your 12 volt battery and with a push button momentary switch you wind up the hose.

Live Electric is both live and electric on the same reel

This reel is Live Electric vacuum and storage side reel (usually used to store garden hose)

NOTE: Live vacuum reels require that all the vacuum hose is pulled off the reel at every job. Even if you do not need it. Because of this the 200 ft reel sells better than the 300 ft reel as most carpet cleaners store and use 165 ft of hoses on the reel and all the hose get pulled off at every job any way. A 50 foot extension hose is just stored on the side wall when needed. Live solution reels do NOT have to have all the hose spooled off at every job except the the first time you use the reel. Get the solution hose HOT and the wind up. After you store your solution hose HOT on your solution reel you just use as needed.

Manual Live Swivel Vacuum with Manual storage side reel

Note all these reels come from China and will have paint chips and small micro dents in the metal. These are not shipping causes and neither the delivery company or Steambrite can or will do anything about this as when we ship out a replacement, it too will not be 100% perfect. These historically are not truly round and perfect and might too have a slight wobble to them. All sales are final as these are an excellent value for what you receive.
