Pumptec 10013 Kit A Plunger & Seal Kit for 348U 350U 357U Pumps GTIN 10679065071330

Model Number: 10013

Pumptec 10013 Kit A Plunger & Seal Kit for 348U 350U 357U Pumps GTIN 10679065071330

Manufacturer: Pumptec

Pumptec 10013 Kit A Plunger & Seal Kit for 348U, 350U, and 357U Pumps
The Pumptec 10013 Kit A is a plunger and seal repair kit used on Pumptec 348U, 350U, and 357U pump heads. This kit is commonly used when the pump is losing pressure, leaking from the head area, cycling poorly, or no longer producing normal flow.
Product Details

- Manufacturer: Pumptec
- Part Number: 10013
- Repair Kit Type: Kit A - Plunger and Seals
- Fits Pumptec Models: 348U, 350U, 357U
- Seal Type: U-Cup Seals
- Plunger Material: 304 Stainless Steel
- GTIN: 10679065071330
- Also associated with: B073JX5LSX, 653341065148, L502165

Common Reasons to Replace This Kit

- Pump pressure has dropped below normal operating range
- Water leaking from the pump head or plunger area
- Pump will not build or hold pressure
- Pump has been run with chemical residue, dirty water, or poor filtration
- Preventive maintenance on high-use carpet cleaning, pressure cleaning, pest control, or misting equipment

Compatibility Notes
This kit is designed for select Pumptec 348U, 350U, and 357U pump heads. Pumptec’s 348U/350U series is a plunger-style pump series used in pressure cleaning, pest spraying, misting, and other compact high-pressure water applications. Pumptec notes that this plunger pump design can produce up to 20% more pressure or flow for a given power input compared with some competitive pump styles.
Installation Tip
When rebuilding the pump, inspect the valves, O-rings, check valves, cam bearing, and manifold condition at the same time. Replacing only the plunger and seals may not correct the problem if the pump also has worn valves, cracked manifold parts, chemical damage, or debris lodged in the valve seats.
Helpful Add-On Parts

- Pumptec Kit B valve and seal kits - recommended when pressure loss is valve related
- Pumptec cam bearing kits - recommended if the pump has noise, vibration, or

Pumptec 10013 Kit A Plunger & Seal Kit for 348U 350U 357U Pumps GTIN 10679065071330

uneven stroke
- Inline water filter - helps protect new seals from grit and debris
- Pumptec pump head assemblies - faster repair option when the head is worn or damaged

Before Ordering
Please confirm your pump model and part number before ordering. Display images are for reference only. Orders are fulfilled by the part number ordered. Specifications and factory substitutions may change without notice.
