Model Number: DH057

Hydrotek DH057 Pressure Washer Hose 50 ft 3/8in ID Single Wire QDs 4000 psi 250 degree New part number CHA0501GN

Manufacturer: Hydrotek

Hydrotek DH057 / CHA0501GN Pressure Washer Hose - 50 ft x 3/8 in ID, 4000 PSI, 250°F

Hydrotek DH057, now associated with part number CHA0501GN, is a 50 ft professional pressure washer hose built for hot water pressure washing systems. This hose is rated for 4000 PSI and up to 250°F, making it a strong replacement hose for commercial pressure washers, trailer units, and mobile wash systems.

Key Features

- 50 ft length - convenient replacement or extension hose size
- 3/8 in inside diameter - common commercial pressure washer hose size
- Single wire construction - flexible and easier to handle than many double-wire hoses
- 4000 PSI pressure rating
- 250°F hot water rating
- Quick disconnects installed
- Swivel on one end to help reduce hose twisting
- Bend protectors on both ends for longer hose life
