Clean Storm 201100812, Extension Power Cord 14-3 X 25 feet Heavy duty Lighted Ends, Mytee E532, D17333025, GTIN 661899107029

Model Number: 201100812

Clean Storm 201100812, Extension Power Cord 14-3 X 25 feet Heavy duty Lighted Ends, Mytee E532, D17333025, GTIN 661899107029

Manufacturer: Clean Storm

Clean Storm 201100812, Extension Power Cord. 14/3 x 25 Feet, Heavy-Duty SJTW, Lighted Ends, 15A 125V for Carpet Extractors & Pressure Washers
Description
The Clean Storm 201100812 25-foot heavy-duty extension power cord delivers ultimate portable power performance with 14/3 gauge wire, high-visibility jacket, and lighted ends. Designed for professional carpet extractors, pressure washers, and jobsite equipment, this UL/cUL approved cord provides reliable 125V 15A power transmission with exceptional flexibility down to -40°F.
Features

- Heavy-duty 14-gauge, 3-conductor (14/3) copper wire construction optimized for high-draw commercial equipment.
- UL and cUL approved for rigorous commercial, industrial, and outdoor operational safety.
- Durable SJTW outer jacket provides superior resistance to moisture, flame, weathering, and abrasion.
- Maintains high flexibility and operational pliability in extreme cold temperatures down to -40°F.
- Equipped with molded lighted ends for quick visual confirmation of power continuity at the plug.
- Grounded 3-prong plug and single outlet configuration ensuring secure, dependable electrical connections.

Applications

- Commercial and portable carpet extractors (e.g., Mytee, Esteam, Prochem, Hydramaster).
- Pressure washers and truckmount auxiliary power systems.
- Jobsite and construction portable power distribution.
- Industrial cleaning equipment and wet/dry vacuums.
- General outdoor commercial and residential tool operation.

Specifications

Brand / Manufacturer	Clean Storm

Clean Storm 201100812, Extension Power Cord 14-3 X 25 feet Heavy duty Lighted Ends, Mytee E532, D17333025, GTIN 661899107029

Model / Part Number
201100812

Cord Length
25 Feet

Wire Gauge & Type
14/3 SJTW (14 Gauge, 3 Conductor)

Amperage Rating
15 Amps

Voltage Rating
125 Volts

Plug Type
Grounded 3-Prong Plug (Single Outlet)

Jacket Characteristics
Flame Retardant, Water Resistant, High-Visibility, -40°F Rated

Certifications
UL / cUL Approved

GTIN / UPC
661899107029

Jacket Color Note
Available in black, orange, red, or yellow depending on stock (Default: Red)

Tips and Additional Information
Before each use, perform a visual inspection of the cord jacket, molded plugs, and lighted ends for any signs of cuts, abrasions, or exposed wiring. Ensure the total electrical load does not exceed 15 amps / 125 volts to prevent overheating. Fully uncoil the cord during high-amperage continuous operation to avoid inductive heat buildup. Keep plug connections elevated and clear of standing water, despite the water-resistant SJTW jacket rating.
Frequently Asked Questions
Q: Is this extension cord rated for outdoor jobsite use?
Yes, the SJTW jacket rating indicates the cord is weather-resistant, flame-retardant, and engineered for outdoor commercial and industrial environments down to -40°F.
Q: What does the lighted end feature indicate?
The lighted molded ends feature an internal indicator light that illuminates when power is actively flowing through the cord, allowing instant verification of power connectivity.
Q: Can this cord handle high-draw carpet extractors and pressure washers?
Yes, built with heavy-duty 14/3 gauge copper wire and rated for 15 amps at 125 volts, it is specifically designed to support commercial cleaning equipment like Mytee, Hydramaster, and Prochem extractors.
Warranty & Safety Information
Covered by standard manufacturer defect warranty. Warranty coverage is immediately voided by physical damage to the cord jacket, cutting or removing the ground prong, overloading the cord beyond its 15A / 125V maximum rating, exposing
