.Clean Storm: Electric ULV Cold Fogger For AirDucts

Sporicidin Disinfectant - 1 Gallon

The ANATROLLER[®]; ARI-50 is a durable, modular, compact, resilient and reliable robot. This robot is highly specialized for air duct cleaning and inspection, and because of its compact size, it is able to clean small ducts (6x6 inches) with ease. The robot is light-weight and fast and is able to carry 4 times its weight and tow an incredible 9 times its weight. Unlike other air duct cleaning robots, it only requires one cable to be connected combining air intake, robot control and video, making it highly manoeuvrable. The robot is very easy to install and operate and includes a high quality camera with video recorder and TFT monitor. Customized designs and additional accessories are available for the robot.

Included with the ANATROLLER[®]; ARI-50

- Large wheels or tracks 8.5" inches
- Camera #1 integrated within the robot
- 100' feet of Cable
- Carrying case for storing the robot.
