Model Number: 80786

Pumptec 80786 Kaivac 217v Water Pump Head Plus Cam Bearing w/ Motor Alternative KIT

Manufacturer: Pumptec

Pumptec 80786 Kaivac 217v Pump Head Plus Cam and Motor Alternative Kit 500 psi.

Please note this 205V pump is larger than the 217V and please make sure it will fit in your motor box cavity!

We only mention this as an option because the in and out water ports face forward like the original.

This is sold as pieces and will not be bolted together. 5 minute self assembly required.

Includes a new rectifier.
