Model Number: W10PTOS

Winco W10PTOS 1Kw PTO Generator for 20 Hp Tractors 99840-003

Manufacturer: Winco Generators

Our newest model of the PTO generator series. The W10PTOS is a durably constructed generator that is designed to increase the versatility of subcompact tractors by providing reliable and clean electrical power to your home, business or farm.

General Construction

- 100% copper windings
- Clean power at less than 5% total harmonic distortion
- Skewed rotors
- Heavy duty capacitors and diodes

Gear Box

- Cast iron gear case (we don't use aluminum gear cases)
- Oil level sight glass

Other Features

- Large voltmeter makes adjustments from the tractor quick and easy
- NEMA 14-60 full power receptacle
- Full power plug ships with the generator
- Sturdy steel frame protects receptacles

Since the 1940's WINCO's name has been synonymous with Power Take-Off (PTO) generators. Through the years our company has provided various PTO models to meet industry demand. Due to the tremendous growth in the subcompact tractor market over the past decade WINCO has developed the W10PTOS for single phase 120/240V portable power.

PTO driven generators require approximately 2HP at the tractor's PTO drive to produce 1kW of power output, making the millions of 20HP+ subcompact tractors sold in America a perfect mate for the new W10PTOS. WINCO's Power Take-Off offerings now extend from 10kW-165kW filling needs from the smallest hobby farmer to the largest farm operations in the US. There are a variety of single phase and three phase models to meet consumer demand.

WINCO will begin releasing orders for the W10PTOS by mid-October, 2013. The W10PTOS comes standard with features you expect from WINCO including a voltmeter, receptacle package, full power plug, and mainline circuit breaker. This model will be compatible with our current manual transfer switch offerings, TDM76 trailer kit, SA11310 PTO shaft, and TPH240 three point hitch kit.
