Model Number: PC219

PowerClean PC219 Dual Liquid Level Switch Stainless 11in (300mm) Long ALL SALES FINAL

Manufacturer: PowerClean

PowerClean Dual Liquid Level Switch Stainless 11" (300mm)
Original OEM part discontinued and this is the closest we can get to substitution.

Photo of used one, but order will be filled with new ones.
Non returnable item as you will have to figure out how to make this work in your application.

Reminder:Must be connected in series with small relays or use plc to directly control the motor/pump/light bulb, although sometimes it seems that the current is very small, but there is a momentary current when the appliance starts, it may burn out the switch contacts inside.

Features:
Used to sense the level of liquid within a tank.
Light weight and simple working principle, high reliability.
The switch may activate a pump, an indicator, an alarm, or other device.
This float switch is a simple structure, easy installation liquid level controller.
Widely used in electronic, electrical, chemical, water treatment, drainage and other fields.
The versatility of this vertically mounted sensor means that it can be installed either at the top or base of your tank, depending on whether you for wish to detect the water's rise or fall.
Installation Method: Vertical Mounting
Thread Diameter: 10mm / 0.39 inch

NOTE YOU CAN FLIP OVER THE FLOAT TO SWAP FROM TURNING ON (CLOSE CIRCUIT) ON RISE TO TURN OFF SOMETHING RISE (OPEN CIRCUIT) BY FLIPPING THE FLOAT OVER ON THE SHAFT/ROD.
