Model Number: 3991610

3 Way Ball Valve 1/4in Brass M X F X F 3991610

Manufacturer: Clean Storm

3 Way Ball Valve 1/4" Brass MIP x FIP x FIP

This 3-way brass ball valve is designed for diverting water or air flow between two outlet ports. Commonly used on selector injector assemblies, carpet cleaning equipment, pressure sprayers, and other low to medium pressure fluid control systems.

How It Works

- Inlet: Bottom 1/4" Male Pipe Thread connection
- Outlets: Two side 1/4" Female Pipe Thread connections
- Move the handle toward the desired outlet port to direct flow to that side
- Handle centered as shown in the photo indicates the off position

Product Features

- Durable brass valve body
- 1/4" MIP x 1/4" FIP x 1/4" FIP connection layout
- 3-way selector design for water or air control
- Rated for hot water use up to 400 PSI
- Teflon seat
- Buna seals

Cross Reference / Alternate Part Numbers

- 3991610
- 8.709-209.0
- 306331
- 87092090

Common Applications

- Clean Storm Selector-Injector Injection Sprayer
- Pre-spray and post-spray chemical selector systems
- Carpet cleaning machines and accessories
- Air or water routing applications using 1/4" pipe thread fittings

Important Notes

Please verify thread size, flow direction, port layout, and pressure rating before ordering. Display images are for reference only. All purchases are fulfilled by the part number ordered.

3 Way Ball Valve 1/4" Brass M X F X F

Water or air comes in the bottom 1/4" Mip and is outbound to the side the lever is over.

Example: move to the right, comes out the right 1/4" Fip connection

Off is in the center as shown in photo
