Forever Clean Magnetic Water Conditioner AT20 G-2 CC-4

Model Number: AT20

Forever Clean Magnetic Water Conditioner AT20 G-2 CC-4

Manufacturer: Clean Storm

The "Forever Clean" AT20 works like no other system ever invented for keeping truckmount systems clear, clean and free from mineral buildup.

*** Built to order, expect 2 weeks in production before shipment ***

Not a Filter.

Forever Clean will eliminate scale and corrosion in your truckmount for 25 years or more, and no regular maintenance is required.

Forever Clean will actually aid in the cleaning and rinsing process by realigning molecules and minerals. This greatly reduces surface tension and increases the ability of surfactants to solubilize and suspend soils.

Forever Clean is easy to install. Simply install the unit on the incoming water supply line - then forget about it, Forever!
Contains alternating north and south pole magnets to align water molecules to prevent them from sticking to your heat exchanger.
1/2" Fpt
