Winco ASCO 200 Automatic Transfer Switch For Winco Generators

Manufacturer: Winco Generators

Winco ASCO 200 Automatic Transfer Switch For Winco Generators

The ASCO 165 Series automatic transfer switch (ATS) are 4-wire control switches that are compatible with all WINCO air-cooled emergency standby generators. The switch monitors incoming utility power. When the utility power fails it starts the generator and transfer the emergency load onto the generator. After the utility power is restored it will transfer the load back to the utility source, cool down the generator and then return to a standby mode. The ATS has an exercise circuit that tests the generator system every 14 days. the automatic test feature can be set under load or under no load.

The 4-wire start system is not compatible with standard 2-wire systems or other proprietary designs from other manufacturers.

Model Number:
ULATSA165/200-3

Manufacturer Name:
ASCO

Maximum Wattage:
48,000 Watts

Voltage:
120/240 Single-Phase

Frequency:
60 Hertz
