All HYDRAMASTER ORDERS ARE FINAL, NON-CANCELLABLE, NO REFUNDS, PRICES SUBJECT TO CHANGE BASED ON DATE SHIPPED!

DM3-HiFlo DriMaster 3 Upholstery Tool

The new DriMaster 3 Upholstery Cleaning Tool maintains the proven ergonomic design, cleaning performance and engineering achievements of the DriMaster 2 Upholstery Cleaning Tool. At the same time, feedback from cleaning technicians just like you has led to several exciting enhancements to the product. Works with both portables and truckmounts!

- MOLDED GLIDES on the tool lips means a smoother surface with nothing to wear out virtually eliminating any chance of fabric snagging
- The tool is easy to clean out and even easier to service! Just undo four screws and remove the nose cone for complete access. Push to connect fittings between the valve and bar jet allow for cleaning access and easy replacement.
- If nose cone gets dropped, cracked or chipped, just replace the nose cone. This extends the useful life of your tool for long term profitable cleaning.

Less operator fatigue, yet durable, but lightweight, the DriMaster 3 Upholstery Tool is less than half the weight of other upholstery tools. The new Jetless Cleaning Technology eliminates the need for a trigger valve so multiple holding positions are possible, lowering the potential for hand strain. No second pass, no over-spray, and high-volume water flow all contribute to the efficiency and speed of cleaning. Cleaning with the DriMaster Upholstery Tool is just plain faster. The high flow - low residual moisture effect of this new technology leaves the fabric cleaner and drier while greatly reducing the chances of damage.

AW86 HydraMaster DM3 or US Products 000-163-220 DriMaster Triggerless upholstery tool.

Can be used at pressures up to 500 psi.

Only weights 2 lbs in use!

Less Operator Fatigue

Delicate or Tough, Whatever the Fabric, HydraMaster has the Solution. HydraMaster's patented DriMaster® Upholstery Tool is unlike any tool you have ever used. Using new Jetless Cleaning Technology, it has no trigger valve, no spray jet, and never needs a second drying-pass. The solution is under constant flow, trained by the patented injector bar and slotted vacuum port system. The result is a highly effective cleaning tool that works without overwetting or heat loss. Even narrow areas can be cleaned without any overspray.

Less Operator Fatigue Durable, but lightweight, the DriMaster Upholstery Tool is less than half the weight of other upholstery tools. The new Jetless Cleaning Technology eliminates the need for a trigger valve so multiple holding positions are possible, lowering the potential for hand strain. No second pass, no over-spray, and high-volume water flow all contribute to the efficiency and speed of cleaning. Cleaning

Cleaning with the DriMaster Upholstery Tool is just plain faster. The high flow – low residual moisture effect of this new technology leaves the fabric cleaner and drier while greatly reducing the chances of damage. Drymaster.

Brandon Johnson - Hydro Carpet Cleaning, LLC - Lebanon, CT

"My HydraMaster upholstery tool (DriMaster tool) arrived and after trying it out, I must say it's the best tool I've every purchased!!!! Thanks for your great products and

>

customer support!"

"...less stress on my technicians and the quality (which is my number one concern) is second to none."

"This is worth the money. I know I'll be selling more upholstery cleaning now. No overspray, no trigger, no mess!"

"Yes, there are many bypass tools. Give me one with no trigger and no overspray when it's lifted. I also like the clear slot so you can see what is being extracted. This is a great tool."

"Love its versatility. Being able to use it right or left-handed, as well as moving your hand up or down the shaft for comfort."

"The weight is perfect. It is the only upholstery tool that I have been able to work in excess of five hours, without sour hands, wrist, etc."

"The DriMaster Upholstery Tool is the workhorse in my business. It removes soil better than any other tool I've use."

"You can clean any type of fabric with the DriMaster Upholstery Tool. I own two of them for large upholstery jobs."

"The DriMaster is the greatest thing since sliced bread as far as I am concerned. I was going to give up upholstery cleaning before I bought mine. It has cut my cleaning time by 25% because I don't do a dry pass."

"The drying times are excellent. I cleaned a cotton print. Two hours later it was almost dry enough to sit on."

"I use my DriMaster upholstery tool to clean the fringes. Just insert fringes into vacuum slot and flush with the cleaning solution. Turn the water flow off, and extract. They cleaned up beautiful."
