Features

System advantage:

- Use more reliable electric equipment.
- Less maintenance than gasoline equipment.
- Less operational cost than gasoline truckmounts
- Uses most power supplied by customer.
- Dual Wand upholstery cleaning!
- Will operate 350 ft of hose!
- Can be used as a portable system or truck-mounted system.
- Will operate on one, two, three, four, or five 120 volt power cords OR three or four prong 240 volt clothes dryer plug, OR optional generator.
- Non stop cleaning, no filling and no emptying.
- No ramp or team lifting needed for portable work.

>

Less smell and fumes than diesel / kerosene water heaters.
Vacuum exceeds the power of 20 Hp 36 blower gasoline Truckmount (327 cfm X 204 inches of water lift = 66,708 vacuum units)
More heat than heat exchanger truckmounts!
Package comes with 160 ft of solution and vacuum hose -enough to clean 99% of every job you ever come to.
Run your 40 amp 4 cord vacuum system on the 240 volt dryer connection with the pump cord to the front porch and this will not overload the or heat up your power cords. Electrically this runs cool for long life on all systems.
Strong enough to run optional air duct cleaning tools.

Run all 4 power cords on your electric 4 gang converter box. Plug in your 5th power cord from the Water Otter to the front porch. The Little Giant heater will provide constant 225 degree F cleaning. For high rise portable work simply dismount the Water Otter and Goliath and take with you. (Note you will have to purchase and extra lose solution hose for this package includes solution hose that is part of your live solution reel.)

Unmatched performance on long hose runs, giving you increased suction, leaving carpets dryer. This versatile unit can be used as a stand-alone extractor, or you can “daisy chain” multiple boosters to complete the biggest jobs more efficiently. This package can be paired with any pressure washer to clean a variety of hard surfaces as well.
The Goliath features an auto pump-out for non-stop cleaning, and we’ve also added our full-size Lint filter, which protects the vacuum motors and pump-out from carpet fibers, pet hair and other debris. With its cutting-edge features and user-friendly operation, the Goliath will quickly become an indispensable addition to your cleaning arsenal.

Specification

Goliath Warranty
One year parts

Tank
27 gallons

Vacuum
Quad 6.6

CFM
Note each vacuum motor is on it's own power cord using 12.5 amps of power

Twin series pair configuration
340 cfm

>

73,100 vacuum units
50 amp total vacuum system
(more performance of a 20 hp 36 blower gasoline truckmount)

H2O
215" or 15 hg

Auto pump-out
30 gpm

Locking Casters
5"

Power Cord
Goliath Four 50' 12/3

Additional Information

How to run on one 120 volt power cord = one 3 stage 10 amp vacuum motor + Pumptec pump turn down or just use building pressure.

Run on two 120 volt power cords: one 3 stage vacuum motor + Pumptec pump turned up OR two 3 stage vacuum motors and Pumptec pump turned down or use supplied building pressure. Run on three 120 volt power cords: two 3 stage vacuum motors + Pumptec pump pressure turned up OR Three 3 stage vacuum motors and the Pumptec pump pressure turned down or just use the supplied building pressure. Run on four 120 volt power cords: Three 3 stage vacuum motors + Pumptec pump pressure turned up OR Four 3 stage vacuum motors and the Pumptec pump pressure turned down or just use supplied building pressure. Run on five 120 volt power cords OR one 240 volt cord + one 120 volt cord: Run all four 3 stage vacuum motors + Pumptec pump turned up as needed. 400 psi for internal spray upholstery cleaning, 500 psi carpet cleaning, full 1200 psi tile cleaning. Note to use supplied building pressure you should change out your spray jets to a optional larger orifice size. This is commonly referred to high flow extraction cleaning. Low psi rinse with high gpm flow rates.

Optional:

BE Pressure Supply: PowerEase 9000 watt Generator Electric Start 7100 watt run BE9000ERUSC
