JE Adams Aqua Breeze Mobile II Misting Fan 6700B 1.1gpm

Model Number: 6700B

JE Adams Aqua Breeze Mobile II Misting Fan 6700B 1.1gpm

Manufacturer: J.E. Adams

The AquaBreeze Mobile II is the most advanced, durable, and high performance mobile cooling system on the market today. The Mobill II is rapidly becoming the mist cooling system of choice for high heat industrial applications, manufacturing and livestock facilities, distribution centers, automotive shops, theme parks, outdoor events, and many more locations where heat is a problem. Using flash evaporative misting technology, the Mobile II can reduce ambient temperature by up to 35 degrees at a fraction of the cost of conventional air conditioning!!

1.0 HP, 1.1 GPM Pump
Fan draws 3.5 AMPS
Pump draws 12.8 AMPS
Can also supply water for (1) additional Satellite unit
Durable and sleek stainless steel construction
