Description
The Mosmatic DGG Swivel 33.052 is a high-performance brass, nickel-plated swivel designed for self-rotating, high-pressure cleaning applications. Ideal for use in tire cleaners, parts washers, and surface cleaners, this swivel ensures long-lasting precision and efficiency.

Equipped with a triple bearing system—including two radial ball bearings and one thrust ball bearing—the 33.052 delivers smooth rotation under high pressure. The O-ring NBR seal system provides a reliable seal, with optional EPDM or FKM materials available for specialized needs. Its corrosion-resistant construction and bulkhead fitting make it a top-tier, maintenance-free solution for industrial cleaning setups.
