Clean Storm 32039B, 1/4 in MIP x 3/8 in Barbed Brass 90° Elbow Fitting

Description

Upgrade and secure your plumbing, pressure washing, or carpet cleaning setup with the Clean Storm 32039B 90-Degree Elbow Fitting. Engineered for durability and leak-free performance, this heavy-duty brass fitting seamlessly connects a 1/4-inch Male Iron Pipe (MIP) thread to a 3/8-inch inner diameter hose barb at a precise 90-degree angle. Its compact right-angle design helps reduce hose kinking, relieves strain in tight spaces, and ensures a continuous, reliable flow. Built from high-quality corrosion-resistant brass, it stands up to tough commercial and residential environments.

Features

- **Right-Angle Design:** 90-degree elbow configuration prevents hose kinking and optimizes routing in tight or confined spaces.
- **Durable Brass Construction:** Crafted from solid brass for superior strength, corrosion resistance, and long-lasting service life.
- **Secure Barbed Connection:** 3/8" barbed end grips tightly onto flexible tubing or hose for a firm, leak-resistant hold (use with a hose clamp for optimal seal).
- **Precision Threading:** 1/4" MIP (Male Iron Pipe) thread ensures a tight, precise fit into standard female threaded ports.
- **Versatile Application:** Ideal for use in carpet extraction equipment, pressure washers, water lines, pneumatic tools, and fluid transfer systems.
