Model Number: 20145181

DriStorm 20145181 HEPA Kit Air Filter Add On For XPower and DriStorm P630 Air Movers Not included

Manufacturer: Clean Storm

DriStorm HEPA Kit Air Filter Add On For All X Power and DriStorm P630 Air Movers

With the HEPA Kit, customers can now use the XPower and DriStorm P630 for general air scrubbing in restorative drying, fire and smoke remediation, mold remediation, remodels and new construction – any situation requiring professional indoor air quality control.

Even with the air mover it's half the weight of standard HEPA units!
Installs in seconds – no tools needed. Just turn on air mover and the filter will suck to the intake side.
Ideal for pet dander control.
Carry one less piece of equipment to the job.
Works with most all X-Power Air mover and DriStorm P630 models.
Minimal impact on air mover life airflow.
Get high quality air filtration at 15% of the cost of a standard HEPA air scrubber.

Easy Maintenance, just wash, dry, re-use!
Note since air mover is open on power switch side, this system does not filter 100% of the air through the hepa filter.
With time, it does improve air quality has more air is rotated through filter.
Vacuum suction holds the filter in place when the air mover is turned on.

Includes one each of the items below:
