Pumptec M15, M8215, M925 Motor Only, 12 volts 15 Amps 1/7 HP 114/112 series Head, AKA M15-8, 30 Frame GTIN: N/A

Model Number: M15

Pumptec M15, M8215, M925 Motor Only, 12 volts 15 Amps 1/7 HP 114/112 series Head, AKA M15-8, 30 Frame GTIN: N/A

Manufacturer: Pumptec

Pumptec M15 / M8215 / M925 Motor Only - 12 Volt DC, 15 Amp, Frame 30
Part Number: M15
Also Known As: M8215, M925, M15-8
Voltage: 12 VDC
Amps: 15 Amps
Horsepower: 1/10 HP
Weight: Approximately 7 lbs
Mounting: Frame 30 pump head mounting
Fits: Pumptec 112 and 114 Series pump heads
Product Description
The Pumptec M15 / M8215 motor is a 12 volt DC replacement motor used with select Pumptec 112 and 114 series pump heads. This is the motor only and is designed for applications where the existing Pumptec pump head is still usable, but the drive motor needs to be replaced.
This motor is commonly used in compact high-pressure spraying, misting, injection, and specialty cleaning equipment where a 12 VDC power source is required.
Important Ordering Notes

- This listing is for the motor only; pump head, cam, valves, fittings, and mounting hardware are not included unless shown or stated otherwise.
- Match your old motor label, voltage, amp rating, and pump head mounting style before ordering.
- Used with select Pumptec 112 / 114 series heads, including pump assemblies such as 80290 and 81163.
- Electrical parts are generally not returnable once installed or wired.

Cross Reference / Search Terms

- Pumptec M15
- Pumptec M8215
- Pumptec M925
- Pumptec M15-8
- 12 Volt Pumptec Motor
- Frame 30 Pumptec Motor

Why Buy the Motor Only?
Replacing only the motor can save money when the Pumptec pump head is still in good condition. If the pump head is leaking, scored, cracked, frozen, or worn internally, consider replacing the complete pump and motor assembly instead.
