58in BRUSHED ALUMINUM HANDLE F/MICROFIBER

Manufacturer: Rubbermaid Comm

Ultra-fine denier microfiber strands (1/10th size of human hair) on mop heads improve dust and bacteria removal rates. Use in hospitals, health care facilities, laboratories and high-tech clean rooms. Increases labor productivity by eliminating water changing and purification steps. Reduces use of chemicals and water. Trapezoid shape easily reaches corners. Aluminum/polypropylene construction.
