Manufacturer: Clean Storm

Clean Storm AH54, Ball Valve 1/4 in Male x Female NPT Pipe 1000 PSI Chrome Plated Brass
Buy More, Save More! $

Description
The Clean Storm AH54 Ball Valve installs directly on your solution hose between the hose end and the quick disconnect coupled to your wand. Designed to streamline your carpet cleaning and pressure washing workflow, this heavy-duty valve allows you to turn water pressure off right at the end of the hose—eliminating frustrating and time-consuming trips back to your truckmount or portable machine. Constructed from classic chrome-plated brass with a stylish satin finish, this valve features 1/4" Male NPT (MIP) by 1/4" Female NPT (FIP) connections and is rated to withstand working pressures up to 1000 PSI. The sturdy metal handle is coated in durable black vinyl for a comfortable, non-slip grip that holds up under rigorous commercial use.
Real-World Application & Time Saver:
Imagine you are on a second-story cleaning job while your carpet cleaning machine remains downstairs. When swapping between an injection sprayer, hand upholstery tool, floor wand, or under-bed cleaning tool, the line pressure must be relieved. Without an end-of-hose ball valve, you would have to walk downstairs, shut down the machine, go back upstairs to change the tool, walk back downstairs to restart the machine, and head back upstairs to resume working. With the Clean Storm AH54, simply shut off the valve right at your working area, switch tools instantly, open the valve, and get right back to work—saving valuable time and effort on every job.

Features

- On-the-Spot Pressure Control: Shut off water flow directly at the tool end to change wands, sprayers, and accessories effortlessly.
- High-Pressure Performance: Rated for operating pressures up to 1000 PSI.
- Durable Construction: Made from high-quality chrome-plated brass with an attractive satin finish.
- Heavy-Duty Vinyl Handle: Solid metal handle lever coated with protective black vinyl (not cheap plastic).
- Standard Threading: Features standard 1/4" Male Pipe Thread (MIP) x 1/4" Female Pipe Thread (FIP) ends.
- Multi-Tool Versatility: Ideal for professional carpet cleaners, pressure washing technicians, and commercial cleaning contractors.
