Ebac ECO150 Industrial Dehumidifier and Dryer 10531GR-US Freight Included

Model Number: ECO150

Ebac ECO150 Industrial Dehumidifier and Dryer 10531GR-US Freight Included

Manufacturer: Ebac

Ebac ECO150 Industrial Dehumidifier and Dryer 10531GR-US (Free shipping)
Product Overview

Part of Ebac's eco-friendly dehumidifier series, the Ebac ECO150 Dehumidifier is a highly efficient industrial dehumidifier that keeps problematic moisture in check. Operating with a high-capacity rotary compressor and environmentally friendly R407-C refrigerant, the ECO150 removes an impressive 1.81 liters of moisture per kilowatt-hour (l/kWh), topping out at 80 pints removed per day. Rugged mobile housing make this unit ideal for a variety of heavy residential, industrial, and water damage restoration applications. Plus, the ECO150 uses Ebac's unique "hot gas" defrosting feature, which automatically melts away frost buildup, allowing it to operate in temperatures as low as 33 degrees F.

Rugged Design, Superior Efficiency
The affordable Ebac ECO150 Dehumidifier comes from Ebac Industrial Products—a worldwide supplier of flood restoration drying equipment—and quickly gets your area back to normal to stop mold, bacteria, and further damage after floods or heavy rains. The ECO150 is constructed to handle the wear and tear of extreme conditions, while its high-efficiency rotary compressor, balanced refrigeration system, and high-performance backward curved fan ensure maximum extraction at the lowest running costs.
An integrated condensate pump quickly pumps collected moisture out of the unit and through an extra-long drain hose (25 feet long). Plus, a robust collapsible handle and semi-pneumatic tires ensure that transport and maneuverability are not compromised.
Additional Features

Rotary Compressor: This highly efficient compressor ensures maximum water extraction at the lowest running costs.

25-Foot Drain Hose: Continuously drain collected moisture using an extra long drain hose.

Washable Air Filter: Quickly clean the Ebac ECO150's filter, which keeps the unit running efficiently and removes impurities from your air while dehumidifying.

Extra-Long Power Cord: An extra-long power cord lets the machine go farther on a single outlet.

Voltage: This rugged dehumidifier plugs into any standard 110/120-volt household outlet.

Ebac ECO150 Industrial Dehumidifier and Dryer 10531GR-US Freight Included

Hours Run Meter: A meter provides accurate run time measurements for job and machine life tracking.

Rugged Wheels: These wheels can stand up to just about anything and are shock-absorbing

The Ebac ECO150 can reduce drying times by as much as two thirds depending on conditions, and reduce the costs of drying by conventional heating by as much as 70%!

To accelerate the drying of new and renovated construction interiors, (once weathertight), to enable plaster, drywall, masonry, paint and carpet to be quickly completed.
To restore rather than replace carpets in flood-damaged areas.
To dry out basements.
To maintain a comfortable locker room environment.
To safeguard stored goods from mildew, deterioration, and rot.
To control the sensitive environment of computer rooms, laboratories, and vaults.

Features:

Simplicity of operation. Standard 115 v. plugs in anywhere.
Large wheels and integral handle for mobility.
Heavy duty galvanized steel chassis.
Ebac's "HOT GAS" defrosting feature which automatically eliminates frost build-up providing effective operation at low ambient temperatures.

Options:

Internal Condensate Pump
Ground Fault Interrupter
