Manufacturer: Ebac

Ebac 10199GR-US Neptune Industrial Restoration Dehumidifier
Compact commercial dehumidifier for water damage restoration, crawl spaces, basements, warehouses, storage areas, and jobsite drying.
The Ebac Neptune 10199GR-US is a rugged, portable industrial dehumidifier built for restoration contractors and serious moisture-control jobs. It combines a compact steel cabinet, high-efficiency rotary compressor, automatic hot-gas defrost, and a standard 115 volt plug for easy operation in residential, commercial, and industrial spaces. Buy the Ebac Neptune 10199GR-US compact industrial restoration dehumidifier. 52 PPD, 282 CFM, 115V, hot-gas defrost, steel housing, 60 lb portable design.
Why Buy the Ebac Neptune?

- 52 pints per day typical extraction for dependable moisture removal
- 282 CFM airflow helps process room air quickly
- Operates down to 33°F with temperature-sensitive defrost control
- Only 60 lbs for easier one-person transport
- 115 volt operation plugs into a standard outlet
- Epoxy powder-coated steel housing for jobsite durability
- Collapsible handle and anti-vibration rubber feet
- 25 ft power cord for easier placement

Best Uses

- Water damage restoration
- Basements and crawl spaces
- Commercial buildings
- Storage rooms and warehouses
- Humidity control in occupied spaces
- Drying after leaks, floods, or construction moisture

Ebac 10199GR-US Neptune Industrial Restoration Dehumidifier 52 PPD 115V

The Neptune is designed for fast placement and simple operation. Plug it into a standard outlet, position the unit in the damp area, route the drain hose, and turn it on. The hot-gas defrost system helps keep the unit working in cooler environments where frost buildup can reduce drying performance.
Important Notes

- Performance varies with temperature, humidity, room size, airflow, and moisture load.
- Keep air inlet and outlet areas clear for best drying performance.
- Use with air movers when faster structural drying is required.
- Drain hose routing must allow proper water flow.

Frequently Asked Questions
Does this plug into a regular wall outlet?
Yes. The Ebac Neptune operates on standard 110/115 volt single-phase power.
Is this a homeowner or contractor unit?
It is a professional commercial/restoration dehumidifier, but its compact size also makes it practical for serious residential moisture control.
Will it work in cooler rooms?
Yes. The Neptune is rated down to 33°F and includes temperature-sensitive hot-gas defrost.
How much water does it remove?
Typical extraction is rated at 52 pints per day, depending on jobsite conditions.
Is it easy to move?
Yes. At about 60 lbs with a collapsible handle, it is compact enough for one-person handling in many situations.
