Hydrotek RGV40H12 Gas Powered Vacuum Water Recovery System

Model Number: RGV40H12

Hydrotek RGV40H12 Gas Powered Vacuum Water Recovery System

Manufacturer: Hydrotek

NEW – Hydrotek RGV40H12 Gas Powered Vacuum Water Recovery System 21 hp 45 Blower

The Hydro Tek RGV40H12 Hydro Vacuum® is a powerful water capture and transfer system. Mate with optional pressure washer for complete vacuum recovery and with optional tools perform carpet and tile cleaning and deflooding too.
The vacuum/blower is gas engine driven and the transfer pump can be plugged into any pressure washer generator, wall outlet and stand alone 2000kw generator.
The unique polyethylene separation tanks are non-corrosive, weigh less than others, and have
full access to the inside for periodic maintenance with a quick lift-off lid. Open the large 1½”
valve to dump sludge/solids that collect at the bottom. Each separation tank has an automatic
transfer system which pumps the water out to your bulk tank, landscape, or sanitary sewer
where permitted. A debris filter and air filter protect both the transfer pump and blower from
debris.
The RGV Hydro Vacuum® is capable of one or two pickup devices. It is ideal for facilities
maintenance contractors who need to collect wash water or for restoration contractors who need
to pick up water after a fire or flood.
ï‚· Vacuum and pump out simultaneously and automatically, no loss of suction or lost time
dumping tanks
ï‚· Recovers up to 25gpm, use 350’ total hose length – Use with one or two pickup devices
ï‚· Light, non-corrosive vacuum separation tanks
ï‚· Debris filter and air filter to protect pumps and blower motor
ï‚· Large fuel tank integrated into frame base while keeping a small footprint
ï‚· Optional: your choice of vacuum berms, recovery surface cleaners, vacuum accessories
(Requires 2” diameter vacuum hose, 2” diameter discharge hose, and minimum 650cca battery, neither included)

Features:
All industrial duty components
Industrial blower creates up to 425 cfm of vacuum
Dual stainless steel transfer pumps for pump out
Dual 26 gallon (52 gallons total) polyethylene collection tanks
High water vacuum shutoff protection

Hydrotek RGV40H12 Gas Powered Vacuum Water Recovery System

Easy to clean basket strainer protects the pump
2” ports for quick pick up and discharge
21 hp 627cc Gas Engine with electric start

Advantages:
Picks up water and pumps it out simultaneously
Small footprint allows to be mounted into the back of a pickup truck or trailer
Pick up water over 350' away from your truck or trailer
50 State EPA compliant
Large 8 gallon fuel tank for long run time

Benefits:
Become EPA compliant by not allowing the water from your pressure washer to enter the storm drain
Save money by being able to use 2 vacuum tools at once
Can be used by either contract cleaners cleaning parking structures or other large areas or by flood recovery companies needing to pick up water a long ways away from their vehicle
